-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

It is noted that the preliminary amendment filed 4-7-06 is not in compliance with 37 CFR 1.121 as the numbering of the claims is not consecutive. There are two new claims numbered "59". For purposes of this Lack of Unity, the second claim 59 through new claim 68 have been renumbered claims 60-69 respectively. Applicants are required to submit an amendment to the claims that corrects the claim numbering along with the response to the Lack of Unity set forth herein. The time period to correct both the preliminary claim amendment and response is set forth to run concurrently.

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 44-50, drawn to method of treatment by administering *Neisseria* outer membrane vesicles which contain Opa that does not bind to CECAM1 which are substantially free of OPA that binds CECAM1.

Group II, claim(s) 51-59, drawn to method of treatment by administering *Neisseria* outer membrane vesicles which are substantially free of OPA that binds CECAM1.

Group III, claim(s) 60-69, drawn to methods of making a vaccine containing *Neisseria* outer membrane vesicles which contain Opa that does not bind to CECAM1 which are substantially free of OPA that binds CECAM1.

The inventions listed as Groups I-III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The technical feature of Group I is administration of *Neisseria* outer membrane vesicles which contain Opa that does not bind to CECAM1 which are substantially free of OPA that binds CECAM1. Groups II and III do not share the technical feature of Group I. Group III does not share the method steps of Group I and as such lacks unity of invention with Group I. Group II lacks an inventive step over the art as set forth in the IPER/409 of record and does not share the special technical feature of Group I. As such, the groups of inventions lack the same or corresponding technical feature according to PCT Rule 13.2.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
